Subject: LAHANA UIC PERMIT - PUBLIC HEARING REQUEST

ALOHA MS. RUMRILL,

I am writing to request a public hearing for the revised Lahaina Wastewater Facility permit. While some of the new conditions on the permit are an improvement over the previous draft, still other requests made by the Maui community have not been addressed. Since new information was presented at the Nov. hearing that the injectate is, in fact, making it into the ocean, it is now paramount that the Clean Water Act be considered in this permit process.

Thank you.
